Start date	:	ASAP
Description	:	Senior Full Stack Developer
Salary	:	£50-60k depending on experience.
Benefits	:	Pension Contribution, Health Insurance (after qualifying period), Hybrid working, Free on-site parking.
Office	:	HQ in Bordon, Hampshire, UK
Holiday	:	25 days (plus Bank Holidays)

RezKit is an exciting new SAAS travel booking system. We are at an early stage with our first client live on the system, and more currently onboarding. We have just raised initial funding to take our early traction to a massive scale. It is our ambition to be the “Shopify for the travel industry”, providing an extensible and powerful core system that can be adapted through addons, and extended via our global marketplace of integrations and associated applications.

This is a great opportunity for someone with a real passion for the latest techniques to further their career and be involved at an early stage of an exciting and interesting project.

This is a senior position in a small but growing company, so you will have the opportunity to develop your skills with the business. It would suit a senior developer with ambitions to lead a team or even take a CTO role in the future.

Responsibilities:

- Take a collaborative role in developing new web applications and GraphQL APIs using PHP (Symfony), Laravel, Vue.js and other modern technologies.
- Help the front end developers develop world class administration interfaces using TypeScript, Vue, Vue3.
- Assist in the development and maintenance of our DevOPS and CI procedures using Fly.io and Vercel.
- Assist in the maintenance and support of existing systems when needed.
- Write maintainable, clear, concise and efficient code.
- Deliver high-quality applications with well-structured code.

- Provide direction and recommendations on the best solution for technical issues that may arise.

Requirements:

- Able to visit the office in Bordon, Hampshire, preferably 2 days per week.
- Excellent communication skills in written and spoken English.
- Must have suitable PHP/PostgreSQL development experience in a commercial environment.
- Must have experience with developing full stack solutions using APIs and front end TypeScript (or JavaScript).
- Solid understanding of database design.
- Experience of GIT and GIT based workflows.
- Understanding and experience of Web Services, REST, GraphQL and HTTP/S.
- Excellent understanding of HTML, CSS & XML.
- Solid understanding of Javascript, TypeScript and libraries such as VueJS and similar.
- Good knowledge of Linux environments..

Nice to Have:

- Experience of leading teams.
- Experience working with and building APIs such as those used by Zapier / Payment Gateways / Airline & Hotel Booking Systems.
- Experience working in an agile environment.
- Knowledge of DevOps trends and working practices.
- Experience working with ElasticSearch.
- Experience working with AWS Cloud Services.
- Experience with Jira & BitBucket.

If you are passionate about web development and excited about the opportunity to work with a fast growing start up, we encourage you to apply even if you don't meet all the requirements as we have a number of positions that we will be advertising.

Please apply by email, sending your CV and a covering letter to recruitment@rezkit.app
